ART

Sweeney Co. Art Advisors
The Inn at Sundance Mountain Resort

Sweeney Co. brings stories to life by activating spaces through art. From international brands to boutique hotels, the firm creates meaningful experiences through thoughtfully curated collections, partnering with local and regional artists to connect visual storytelling with the communities that shape each destination. For The Inn at Sundance Mountain Resort in Utah, Sweeney Co. shaped a collection that honours the resort's enduring traditions while celebrating the present. Creating a visual narrative where art and history converge, the scheme tells a story of land and legacy. As part of this vision, emerging artist Daniel Bailey was commissioned to create an original work inspired by 19th-century painter Albert Bierstadt. Bailey's painting links the resort's conservation legacy with the historic role art has played in advancing environmental awareness. Across its portfolio, Sweeney Co. transforms spaces into immersive environments that embody the character of each property. By bringing stories to life through distinctive, authentic experiences, the firm goes beyond decoration to create spaces that resonate, inspire and leave a lasting impression.

Jonathan Charles Hospitality
JC Art, Decor & Lighting

Jonathan Charles Hospitality has launched a new creative division dedicated to original art, accent lighting and decor for the global interiors industry. Established to meet growing demand for curation services, JC Art, Decor & Lighting offers art consultancy for projects of every scale, from statement commissions to integrated decorative schemes. Based in Vietnam, the division is supported by dedicated production facilities and a talented team of artists, makers and artisans whose work is rooted in craftsmanship and elevated by innovation. Each creation is conceived as a considered design element, handcrafted to enrich a space and leave a lasting impression. This new chapter builds on the legacy of Jonathan Charles Hospitality, with the division reflecting the firm's belief in craftsmanship, creativity and the power of beautifully made things to define extraordinary spaces.
